NOTES

VIEWING

The sale animals can be inspected prior to the sale by appointment, telephone the Vendors on:

WH & SJ Rawlins - 01980 652701 / 07767 408068

GV Sparkes & Son - 01761 221601 / 07971 177932

ROSTRUM TELEPHONE NUMBER

The rostrum telephone numbers on the day of sale are:-

Derek Biss	07850 932555	Sally Mitchell	07764 817998
Andrew Clements	07769 904704		

DIRECTIONS

FROM M5 JUNCTION 24 (travelling north) take the first exit off the roundabout, *keep in left hand lane and take the 1st exit off the next roundabout onto the A38 and the market entrance is located on the left hand side.

FROM M5 JUNCTION 24 (travelling south) take the third exit and proceed as above*

REFRESHMENTS

Available.

PAYMENT

Payment must be made in full to the Auctioneers on the sale day. No lots may be removed from the sale site without an Auctioneers pass confirming payment. **Prospective Purchasers who have not traded with the Auctioneers before, are requested to make themselves known prior to commencement of the sale and confirm arrangements of payment.**

SOMATIC CELL COUNTS (SCC)

For NMR recorded cows the individual SCC printed in this catalogue for in milk cows is the cumulative figure for the current lactation. For dry cows it is the 305 day average figure for the last completed lactation. Both figures are taken from the NMR monthly recording dated above Lot 1.

DRY COW THERAPY

Whilst every effort is made to catalogue or announce the correct information regarding dry cow therapy, the Auctioneers recommend that Purchasers check with the vendor for the latest drying off dates. The Auctioneers are not responsible for any consequential losses resulting from purchasers wrongly milking cows that have been treated with dry cow therapy.

ENTRY TO SALE PREMISES

All visitors please note that entry to the sale site is at your own risk. No liability whatsoever can be accepted by the vendors or the Auctioneers.

BREEDING WARRANTY

Results of pregnancy diagnoses are given for guidance only and breeding warranties are in accordance with auction rule 7 printed in this catalogue.

CONDITIONS OF SALE

The sale will be conducted under Greenslade Taylor Hunt's conditions of sale (see end of catalogue). These Conditions of Sale and Warranties do not apply for incalf and in-milk cows and heifers sold for 600gns or less.

TUESDAY 28th MARCH 2017

FOREWORD

Henry and Stan's grandfather came to Ablington Farm during 1939. Following the dispersal of the original herd in 1982 Henry and Stan founded the Ablington herd in 1983. The shorthorns catalogued originated from the late Ken Osbornes 'Stoneaston' herd and other quality sales that were featured around that time. The Shorthorns were originally purebred but blending was introduced to enhance yields and stature.

The Shorthorn and Holstein herd are run as one with both standing inspection emphasised by the shorthorns which have been seen at local shows and the South West Dairy Event, most recently 'Ablington Orchis 16th' (Lot 15) was Champion Dairy Shorthorn at the 2016 Frome Livestock Show. Over the years they have collected numerous successes in the South Western Counties Shorthorn Breeder's Association (SWCSBA) herd competition to include being regularly in the top three for the overall competition as well as members of the Wildeye's family winning the best senior cow in recent years and the Jill and Strawberry families winning best cow family and the Fairmaids best maiden heifer demonstrating the depth of the families at Ablington. Henry is an active committee member on the SWCSBA and is a representative for them at Council level.

With the imminent retirement of the herdsman and the family already heavily committed to other sides of the business the very difficult decision has been made to cease dairy production. This decision provides all dairy producers the rare opportunity to purchase from a Shorthorn Dispersal taking nothing away from the superb Holsteins that accompany them.

HERD MANAGEMENT

The cows are fed a TMR ration of grass and maize silage, additives and minerals although not pushed for extreme yields. They are housed in loose yards and milked through a **Herringbone Parlour** in which a small amount of concentrates are fed to yield. This simple system has produced the following creditable NMR averages for the year:-

PEDIGREE SHORTHORNS

6430 kgs. 3.65% Butterfat 3.31% Protein SCC= 142

COMMERCIAL HOLSTEINS

8506 kgs. 3.43% Butterfat 3.23% Protein SCC= 160

CALVING PATTERN

The herd calves throughout the year with a strong bias towards the autumn with the following approximate calving pattern:-

SHORTHORNS

January 2017 (2); February (3); March (1); April (1); August (2); September (9);
October (14); November (14); December (6).

HOLSTEINS

January 2017 (4); February (4); March (5); July (1); August (3); September (12);
October (8); November (14); December (5).

HERD HEALTH

The herd has regular routine vet visits and are vaccinated for BVD & Lepto & IBR. The cattle were pre movement tested on 24th February 2017 and the herd is in an annual testing parish. Dry cows are treated with Cepravin dry cow therapy.

YOUNG COWS

There are a large proportion of young cows in the catalogue as follows:-

Shorthorn	Holsteins	
11	15	1st Lactation
12	16	2nd Lactation
14	9	3rd Lactation
9	13	4th Lactation

Plus 13 Shorthorn and 11 Holsteins in their 5th+ lactation keeping their place in the herd on merit.

SIRES and SERVICE SIRES

The Rawlins family uses Cogent, Genus and Red Cattle Genetics for both the Shorthorns and the Holsteins they look to use bulls with good milk quality that are not too extreme. The Following sires are represented in the catalogue:

SHORTHORNS:- Drisgol Watzon (11); Nixs Lcd Lido (9); Strickley Maximus (6); Hoton Fair Reflection (4); Marleycote Thunder (4); Gelli Ipod Discoverer (4); etc.

HOLSTEINS:- Deangate Tarquin (8); Wardle Donnie (7); Kings-Ransom Dover (6); Huddleston Spooky (5); Bidlea Padbury (4); Burlane Tennyson (3); Laurelhill Classic (3); Moet Brinstar Sirius (3); Cogent Prestwick (2); Wa-Del Junction (2); Overside Dragon (2); etc.

Service Sires

SHORTHORNS:- Aberdeen Angus (18); Fronfedw Juan (*Blonde*) (15); Churchroyd Percy (10); Spruce-Haven Rooster Red (7); Churchroyd Wild Card (5); Cottonhall Ambrose (3); Marleycote Thunder (2); etc.

HOLSTEINS:- Aberdeen Angus (21); Regancrest Paradise (8); Spruce-Haven Rooster Red (7); De-Su 1128 Topsy (7); Fronfedw Juan (*Blonde*) (6); Rosemount Hardy (*British Blue*) (3); Beaufort Hither (3); etc.

AUCTIONEERS' COMMENTS

This herd is a superb display of Pedigree Shorthorns and excellent balanced Holsteins, the rare opportunity to purchase some top quality Shorthorns should not be missed with breeding potential unlimited and many stars that could also be shown. The Holsteins should not be understated as they too stand inspection being balanced cows with a real feature being the quality of their udders combined with good legs and feet. Without doubt a sale not to be missed!

Greenslade Taylor Hunt

VETS' COMMENTS

I have been looking after the dairy herd at Ablington Farm for almost five years. The Rawlins family are passionate about breeding Shorthorn and Holstein cows, and the herd successfully follows a detailed herd health plan including vaccinations against BVD, Leptospirosis and IBR. Professional knowledge, honesty and openness and attention to detail by all members of the team are outstanding, and the result is a herd of excellent, healthy cows which perform highly on a system which involves grazing in the summer and TMR feeding in the winter, and when sold are likely to perform well on most common systems.
